

PUBLIKATIONEN

Prof. Dr. Boris Nohé, Chefarzt der ZAINS

- Ploppa A, Kampmann M, Johannes T, Haeberle HA, Nohe B: Effects of different leukocyte subpopulations and flow conditions on leukocyte accumulation during reperfusion. *J Vasc Res* 2012; 49:169-80
- Ploppa A, Haeberle L, Schmidt E, Nohe B: Left ventricular thrombus during cardiopulmonary bypass as primary manifestation of heparin-induced thrombocytopenia (HIT). *J Cardiothorac Vasc Anesth* 2012; Jan 10 (Epub ahead of print)
- Ploppa A, George TC, Unerl K, Nohe B, Durieux ME. Image Stream cytometry extends the analysis of phagocytosis and oxidative burst. *Scand J Clin Lab Invest* 2011; 71:362-9.
- Walker T, Müller I, Raabe C, Nohe B, Zanke C, Ziemer G, Wendel HP: Effective silencing of adhesion molecules on venous endothelial cells for protection of venous bypass grafts. *Eur J Cardiothorac Surg* 2011; 40:1241-47
- Nohe B, Ploppa A, Schmidt V, Unerl K: Volumetherapie in der Intensivmedizin. *Anaesthesist* 2011; 60:457-64
- Ploppa A, Schmidt V, Hientz A, Reutershan J, Haeberle HA, Nohe B: Mechanisms of leukocyte distribution during sepsis: an experimental study on the interdependence of cell activation, shear stress and endothelial injury. *Crit Care* 2010; 54: 1145-8
- Ploppa A, Unerl KE, Nohe B: Thrombelastometry-guided thrombolytic therapy in massive pulmonary artery embolism. *Acta Anaesthesiol Scand* 2010; 54: 1145-8
- Haeberle HA, Menzel D, Unerl K, Nohe B: Management einer komplexen Thrombozytopenie mithilfe der Thrombelastometrie. *Anaesthesist* 2011; 60: 1135-40
- Johannes T, Mik EG, Klingel K, Goedhart PT, Zanke CC, Nohe B, Dietrich HJ, Unerl KE, Ince C: Effects of 1400W and/or nitroglycerin on renal oxygenation and kidney function during endotoxaemia in anaesthetised rats. *Clin Exp Pharmacol Physiol* 2009; Epub ahead of print
- Ploppa A, Kiefer RT, Nohe B, Haeberle HA, Dieterich HJ, Unerl KE, Durieux ME, Krueger A: Monocyte phagocytosis of viable *Staphylococcus aureus* is impaired by barbiturates, but not by propofol. *Infection* 2008; 36: 220-5
- Kiefer RT, Rohr P, Ploppa A, Nohe B, Dietrich HJ, Grothhusen J, Altemeyer KH, Unerl K, Schwartzman RJ: A pilot open-label study of efficacy of subanesthetic isomeric S(+)-ketamine in refractory CRPS patients. *Pain Med* 2008; 9; 44-54
- Schroeder TH, Krueger WA, Dietrich HJ, Nohe B: Activity of the lipoxigenase inhibitor 1-phenyl-3-pyrazolidinone (phenidone) and derivatives on the inhibition of adhesion molecule expression on human umbilical vascular endothelial cells. *Biologics* 2008; 2: 151-60
- Johannes T, Mik EG, Nohe B, Unerl KE, Ince C: Acute decrease in renal microvascular PO₂ during acute normovolemic hemodilution. *Am J Physiol Renal Physiol* 2007; 292: F796-F803
- Johannes T, Mik EG, Nohe B, Raat NJ, Unerl KE, Ince C: Influence of fluid resuscitation on renal microvascular PO₂ in a normotensive rat model of endotoxemia. *Crit Care* 2006; 10; R88
- Ploppa A, Kiefer RT, Nohe B, Haeberle HA, Dietrich HJ, Unerl KE, Krueger WA: Dose-dependent influence of barbiturates but not of propofol on human leukocyte phagocytosis of viable *Staphylococcus aureus*. *Crit Care Med* 2006; 34: 478-83
- Haeberle HA, Nohe B, Eltzschig HK, Unerl K, Dietrich HJ: Effect of synthetic colloids on major histocompatibility complex class II expression. *J Clin Anesth* 2006; 18: 96-101

- Löwenheim H, Koerbel A, Nohe B, Bultmann E, Hirt B, Kaminsky J, Tatagiba M, Eernemann U: Massive Epistaxis mit hämorrhagischem Schock im Spätintervall nach Schädelbasisfraktur. HNO 2006; 54: 768-71
- Nohe B, Ries R, Ploppa A, Zanke C, Eichner M, Unertl K, Dietrich HJ: Effects of intraoperative blood salvage on leukocyte recruitment to the endothelium. Anesthesiology 2005; 102; 300-7
- Nohe B, Johannes T, Schmidt V, Schroeder TH, Kiefer RT, Unertl K, Dietrich HJ: Einfluss verminderter Scherkräfte auf Entzündungsreaktionen in vitro. Effekte pathologischer Scherkräfte auf Leukozyten-Endothel-Interaktionen und mnzytäre "Tissue-factor-Expression" in humanen Zellkulturen. Anaesthesist 2005; 54: 773-80
- Nohe B, Johannes T, Reutershan J, Rothmund A, Haeberle HA, Ploppa A, Schroeder TH, Dietrich HJ: Synthetic colloids attenuate leukocyte-endothelial interactions by inhibition of integrin function. Anesthesiology 2005, 103: 759-67
